

Gigaset G-tag

This Bluetooth 4.0 device can offer you various functions on your smartphone in conjunction with the Gigaset G-tag app, including:

- Finding your valuables (keys, wallet/purse, etc.)
- Showing you where you have left your valuables
- Reminding you to always take your bag, keys, wallet/purse with you
- Compatible with:
 - iPhone 4s, iPad 3, iPod touch (5th generation) or newer, with iOS 7 or newer
 - Android smartphones with Bluetooth 4.0 and with Android 4.3 or newer

Examples of use

Gigaset G-tag always knows where I parked my car.

My Gigaset G-tag is in the car. When I get out of the car, my smartphone makes a note of where I have parked it. Even if I don't drive it for days, my smartphone can still take me straight back to my car!

Gigaset G-tag tells me my luggage has arrived.

I'm a frequent traveller and often take long-haul flights. Before leaving on a flight, I simply place the Gigaset G-tag in my luggage and can then avoid being jostled by the crowds at the baggage reclaim belt on arrival. My smartphone tells me when my luggage will appear on the belt.

Gigaset G-tag protects my camera.

I recently left my camera equipment on a train. To make sure that doesn't happen again, I've attached a Gigaset G-tag to my new photo bag. This means I'm instantly alerted if I head off somewhere without my equipment!

Gigaset G-tag keeps an eye on my valuables.

A wonderful evening in a restaurant came to an end earlier than expected when the taxi I ordered came a quarter of an hour early and I had to leave in a hurry. I only realised I no longer had my handbag with me when I went to pay. But I was able to solve the problem straight away with my smartphone – and we headed back to the restaurant, where the Gigaset G-tag had been keeping an eye on my handbag.

Gigaset G-tag reminds me to take my key with me.

I've forgotten to take the front door key with me a number of times. But now the list function in the Gigaset G-tag app reminds me to take my key with me when I leave the building.

Technical data

Gigaset G-tag

Dimensions and weight

- 37 × 37 × 9.2 mm (H × W × D)
- 12 g
